PROTECT ESSENTIAL WORKERS

COVID-19 and the economic shutdown created huge budget deficits for schools and our communities. Hundreds of thousands of essential workers are facing jobs cuts. Meanwhile, big corporations are making record profits. We can't slash jobs during a recession and we must ensure essential workers on the frontlines of this crisis are respected and protected!

YES ON PROP 15

Prop 15 ensures that corporate CEOs pay their fair share to help prevent drastic cuts, and save essential workers and union jobs. Our schools and communities come first. Yes on Prop 15!

NO ON PROP 22

Multi-billion dollar gig corporations like Uber must pay fair wages and provide basic protections all workers deserve. No corporation should be able to buy an election to exempt themselves from laws that protect workers. That's why Union families are voting NO on Prop 22!
